

# Public Charging Station Bill Credit

Help reduce carbon and earn money back on your electric bill!

To qualify for this bill credit, the charging station must be located at a business or municipal property and must be available to the public at all times. It must be a Level 2 or Level 3 charging station. The bill credit is \$500 per connection and is limited to \$2,000 per location. **Please include proof of purchase/installation with this form.**
