

Home Level II Charger Bill Credit

Please complete this form and send it to VEC with proof of purchase of a qualifying Level II charger to receive the \$250 purchase incentive.

Participants must do one of the following (please check which option you are choosing):

- Enroll in a communications platform so that VEC can request that your charger not operate during peak events (5-6 events per month for 3-4 hours each). A VEC representative will contact you to complete this process, and you will receive an additional \$50 incentive for enrolling. This option is available only for ChargePoint and Flo chargers.
- Set your charger or car schedule to not charge from 5-9pm Mon-Fri and send in a screenshot on that schedule.

Participants also will be enrolled in VEC’s Beat the Peak Program, where members receive alerts about 3-4 times during the summer when VEC expects high demand for electricity. During these events, VEC requests that members take steps to decrease their electric use, such as shutting lights off, turning up the thermostat, and delaying use of major appliances.
