

Home Level II Charger Bill Credit

Please complete this form and send it to VEC with proof of purchase of a Level II charger to receive the \$250 purchase incentive.

Participants who accept this incentive must do one of the following:

1. If their charger is on the list below, members may be able to enroll in a communications platform so that VEC can request that your charger not operate during peak events (5-6 events per month for 3-4 hours each). A VEC representative will contact you to complete this process, and you will receive an additional \$50 incentive for enrolling.
2. If the charger is not on the list below or the member chooses not to enroll their charger in the control platform, set your charger or car schedule to not charge from 5-9pm Mon-Fri and send in a screenshot of that schedule.

Participants also will be enrolled in VEC's Beat the Peak Program, where members receive alerts about 3-4 events during the summer when VEC expects high demand for electricity. During these events, VEC requests that members take steps to decrease their electric use, such as shutting lights off, turning up the thermostat, and delaying use of major appliances.

Participants with models listed below may be able to choose Option #1 above and enroll in a VEC communications platform:

- ChargePoint Home Flex
- FLO Home
- Webasto (Packetized-enabled)

Name: Account number: Phone:

Address: Email:

How would you like to receive Beat the Peak alerts? Email Text Phone

Please list the email or phone number for the Beat the Peak alert: _____

Please list the make, model number, and serial number of the charger:

Make: Model #: Serial #:

Please send the completed form to Vermont Electric Cooperative. **Please make sure to include a copy of the proof of purchase and proof of charging schedule with your application** so that there is no delay in processing your bill credit. Please contact VEC at 1-800-832-2667 with any questions:
