

## Out in the Field with VEC

We sat down recently with a couple of VEC's lineworkers and learned about their previous work experience and their family lives, as well as the challenges and rewards of their roles at the co-op. (We also heard how much they appreciate our members, too!) [Here's what they said.](#)

## Consults on energy savings available through EVT

Just a reminder: Efficiency Vermont offers [energy assessments specifically targeted to businesses](#). They offer over-the-phone guidance to help identify cost-effective opportunities, various ways to take action, and the most efficient equipment to meet your needs. On larger projects, they offer site assessments as well. Learn how [Efficiency Vermont helped Randolph-based Vermont Glove reduce their energy costs](#).

## New equipment? See usage impacts with SmartHub

Have you installed new equipment to changed processes at your business and you want to know if there has been an impact on your electricity usage? With our online portal [SmartHub](#) you can monitor your electric usage at the monthly, daily, and hourly levels. You can also sign up for [paperless billing](#). Details and sign-up information can be found [here](#), or you can call VEC Member Services at 1-800-832-2667.

## On the road: beware of power lines

Whether you're out and about taking the kids to sports or driving for work in a commercial vehicle, be aware of the risks of power lines. [Here's the story of a near-miss in Colorado involving a school bus and lines that fell onto it due to heavy, wet snow.](#)

*As always, please contact us with any feedback or questions.  
You can connect with [Dave Lahar](#) who provides assistance to business*
