

VEC Business *Winter 2026*

Hi there! We're excited to share some news about our fleet: we've added [two new hybrid electric bucket trucks](#) that are already making a noticeable impact. These innovative trucks significantly reduce fuel use and make our worksites quieter.

Using big onboard batteries, the trucks can run the boom and bucket without the diesel engine idling. That means when lineworkers are making repairs or upgrades, they're doing it with about one-third less fuel use. The bonus? Quieter worksites that make it easier for crews to communicate—and a more peaceful experience for the neighborhoods where we work.

In the field and in the office, safety is a key value at VEC

VEC's proud to be the only electric utility east of the Mississippi River (and only one of three companies of any sort in Vermont) that is certified with the prestigious OSHA safety designation known as the Voluntary Protection Program. Learn how VEC [has woven a safety ethic](#) into all of our operations.

Fake tech support, law enforcement imposters, among today's top scams

The Vermont's Attorney General received 3,982 scam reports in 2025, a 12 percent bump over 2024. Leading the list were tech support scams, and a newer scam that made the top ten is the law enforcement imposter scam. [Read about these and other scams](#) and find out how you can protect yourself and your business.
