VEC AND THE MODERN  
ELECTRIC GRID:  
WHAT YOU NEED TO KNOW

Save your spot!

Join us Oct. 26 for a stimulating conversation about VEC's innovations, the modern electric grid, and what the current energy transformation means to our communities. EVs and heat pumps are gaining ground. But can the grid handle increased demand? And equity - how can the energy transition benefit all Vermonters, no matter their financial circumstances? Bring your questions and comments!

## VEC, Jay Peak partner on new electric boiler system

Jay Peak Resort, one of VEC's larger C&I members, is [installing a new boiler system](#) that will allow the facility to switch its heating demand from propane to electricity at times when consuming electricity is more cost-effective. The project, which had the support of VEC, Efficiency Vermont and others, will have two important benefits to the resort: saving money and reducing the resort's carbon footprint.

## Add convenience with SmartHub, paperless billing

If your business has not already signed up for our online portal [SmartHub](#), why not take a moment and do so now? With SmartHub you can monitor your electric usage at the monthly, daily, and hourly level, get alerts, and more. You can also sign up for [paperless billing](#). Details and sign up information can be found [here](#) or you can call VEC Member Services at 1-800-832-2667.

## EV charging at multi-family housing, businesses

A new program is offering financial assistance for EV chargers. The [new funding](#) supports EV charger installations at businesses, as well as multi-unit dwellings and public attractions. In addition, VEC offers a separate [public charging incentive](#).

## VEC Community Solar: available for businesses, too

Did you know that [VEC's Co-op Community Solar program](#) is open to commercial and industrial members as well as residential members? Members can save money over 10 or 20 years and help put clean electricity onto the local electric grid. More info [here](#).

## Cybersecurity: Four basic practices to keep you safe

October is cybersecurity awareness month, and we've got [four simple tips](#) for keeping your systems, whether at business or at home, safe from bad actors.
